

## **Local Sound**

### ***Biography***

Local Sound is a movement born from within the Nashville-based house church movement, MyLocal. Beyond a band, Local Sound are culture creators, using art and community to build God's Kingdom in today's society. The "local" within Local Sound speaks to the roots of who they are, fully backing God's dream of "the local Church" and believing that God - the original culture Creator - has designed the local Church to immerse the world in His eternal culture. The "sound" is a reflection of their heart to unite the word of God with highly energetic and innovative music that reaches society. Passionate by a call to spread the gospel through relevant and inspiring message-driven tunes, Local Sound express the joy found in a life fully devoted to Christ and the realization of His deep love song by song.
